QUICK GYRO

X75

It's too powerful and too compact

X75

It's too powerful and too compact

MC² X75 is super compact and the most powerful gyro of the Quick range.

It is 30% smaller than market standards, power being equal.

It takes just 30 minutes to stabilize 90' boats.

Multiple installations ensure the stabilization of boats up to 400 tons.

Exceptionally water-cooled to enjoy every positive result achieved.

220-240 Vac / 380 Vac

4000 RPM

27153 N·m·s

75000 N·m

950 x 950 x 1035 mm

37,4 x 37,4 x 40,7 in
